Honorable William J. Casey
Director of Central Intelligence
Central Intelligence Agency
Washington, D. C. 20505

Dear Bill:

The Interagency Group-Counterintelligence (IG-CI) has made excellent progress toward completing the Counterintelligence Organizational Study. There will be one more IG-CI meeting to afford the group one last opportunity to discuss the study and to bring up any remaining problems. Since there have been two drafts which have been reviewed by the participants, I do not anticipate that any serious new issues will be raised.

Following the meeting of the IG-CI, I will review the final draft and send it to you. We will be able to meet our target date for the completion of the study, and I fully anticipate that I will furnish the completed study to you during the week of May 23, 1983.

Sincerely,

Bill

MEMORANDUM FOR THE CHAIRMAN, SENIOR INTERAGENCY GROUP (INTELLIGENCE)

SUBJECT: Organizational Study in the Countermeasures
Area

Although work has been progressing steadily on the IG/CM organizational study, it has become clear that due to its length and complexity, the study will not be completed by the end of May.

As you recognize, we are covering some twenty separate programs from an organizational standpoint. Coordination will be required of many separate offices and organizations within the executive branch. At this stage, we anticipate at least two formal rounds of coordination will be required to produce a finished product.

We now are looking toward the end of June as a target date for completion of this study. Even this is an optimistic forecast, but I intend to hold to this course if at all possible.

Richard G. Stilwell
General, USA (Ret.)
Deputy
